NOTES

Schools are listed by county; and, within each county, by municipal district, town or city.

Included as appendices are:

- A - a list of schools having pupils enrolled in senior high school grades;
- B - a list of regional vocational schools;
- C - a list of locally-appointed supervisory personnel;
- D - a list of local school authorities and their secretaries;
- E - an alphabetical index of schools;
- F - a list of divisional inspectors and supervisors of schools.

Schools within municipal districts are arranged so as to show as nearly as possible their grouping as instructional units. In each system, sub-system or group of schools, the high school is listed first, followed by its feeder schools. To find the putative destinations of pupils attending elementary schools, read up except where otherwise instructed.

There is much local variation, however, in keeping with the increasing flexibility of the comprehensive school system. Differ-

ent pupils of the same elementary school may proceed, according to their requirements, to several secondary schools.

Similarly, certain elementary schools in some municipal districts 'feed' secondary schools other than regional high schools in other municipal districts or in towns.

Indentation is used to indicate (a) a school located in the section named above it; or (b) a school whose pupils proceed to the secondary school named above it. Double indentation is used occasionally to indicate an elementary school which 'feeds' another elementary school which in turn 'feeds' a secondary school.

Schools in cities, towns or large village sections are listed usually in alphabetical order.

Approximate enrolments are given as of September 30, 1968. The number of pupils enrolled, and the number of teachers employed, may vary appreciably throughout the school year. The statistics in this Directory may therefore not tally exactly with the statistics in the Annual Report of the Department of Education for the corresponding school year, or in other directories. The figures in this Directory are not to be taken as official for statistical purposes.
